Trauma, Critical Care, and EMS Symposium

Mass Casualty Disaster and Management

2017 Penrose-St. Francis Trauma, Critical Care, and EMS Symposium

Mass Casualty Disaster and Management

Friday, May 12, 2017

Colorado Springs, Colorado

Cheyenne Mountain Resort
7:45 am - 5:00 pm
Registration & Breakfast 7:00 - 7:45 am
The Trauma and Spiritual Care Departments at Penrose-St. Francis Health Services are teaming up to help our community!

- Explain the challenges faced by the OR in a mass casualty event
- Identify risk factors and the physiological responses consistent
- Discuss roles and responsibilities of the emergency preparedness department, and key components of the incident command system.
- Review liver and splenic embolization guidelines, procedure, and summarization.
- Discuss the importance of damage control surgery and improvements

AT THE CONCLUSION OF THE EVENT PARTICIPANTS WILL BE ABLE TO:

- Describe the ability to triage multiple patients with intracranial injuries while defining the injury patterns seen in blast trauma.
- Communication breakdown and confusion in predictable stages of disruption pertaining to mass casualty events.
- Analyze lessons learned from recent hostile events, and how we can improve our triage systems.
- Understand development of medications that benefit civilian casualties at mass casualty incidences.
- Recognize protocols that help active shooter cars, how to improve them, and dispatcher stress.
- Examine communication between law enforcement, EMS responders, and the hospital.
- Identify the coroner’s role and crime scene preservation techniques at the onset of a mass casualty event.
- Recognize the provision ofInitial response to mass casualty events and the training involved.
- Recognize signs and symptoms of traumatic stress in others/self and how to get the resources needed.
